

Backpacks are to be stored in students lockers due to the fire hazard created in classrooms and hallways. This issue was pointed out by the fire marshal on his last visit to our school so we are following these guidelines. Students may go to their lockers on morning break after first class and at lunch to organize their books and belongings. Students may carry a drawstring sneaker bag for personal belongings and small items they need. Ex. Water bottle, gym gear, lip chap, personal hygiene items. We will strive to be consistent and socially just with our expectation around backpacks and locker use.
